

# The Philips HeartStart FR2+ Defibrillator

Each year sudden cardiac arrest (SCA) strikes approximately 340,000 people in the U.S. alone and hundreds of thousands more worldwide. Fewer than 5% of those victims survive, largely because emergency medical services do not reach them in time. The combination of timely CPR and defibrillation is a highly effective treatment for the most common form of SCA, significantly improving the chances of survival.

## Now with SMART CPR and Quick Shock

Its host of features makes the FR2+ an extremely versatile and rugged defibrillator, enabling responders to potentially save the life of a coworker, friend, patient or fellow citizen under demanding circumstances.

### **Lightweight**

Weighs just under 5 pounds fully equipped.

### **Rugged**

Designed for use in extreme environments and conditions.

### **Intuitive**

1-2-3 operation, with text and voice prompts.

### **Capable**

Can be used on anyone of any age, including infants and children.

### **Ever-ready**

Powered by either a long-life disposable or a rechargeable battery.

### **Effective**

Clinically proven low-energy waveform.
